

Sprint 1 Plan

Goal:

Front end: have an app up and running what will display a map

Back end: Be able to store data for descriptions of places

Task Listings:

User story 1: "As a new student, I would like to find points of interest on and around campus"

-Get UI up and running, add Google Map to it. (est. 1 week)

Total for user story 1: one week

User story 2: "As a student I want an actual description of the place that i might visit and I want other people's opinions"

-Get data storage running on Raspberry Pi with web server (est. 1 week)

Total for user story 2: one week

Team Roles:

Jared Jensen: Product Owner, developer

Eric Shi: developer

Anna Andresen: SCRUM Manager, developer

Esteban Quijada: developer

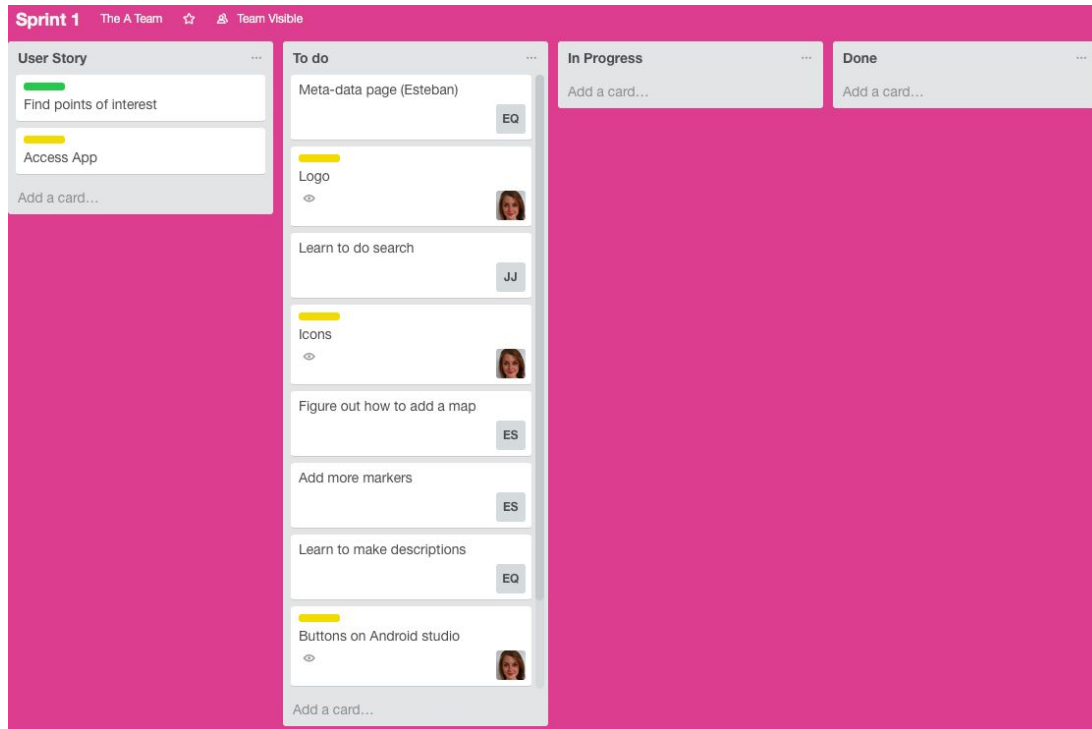

Abdul Mohammed: developer

Scrum times:

- Monday 12 pm
- Wednesday 12 pm
- Sunday 3 pm

Room 316 in Baskin Engineering

Initial Scrum Board:

*time estimations are indicated in the trello chart as comments

Initial burn-up chart:

Story ID	Title	Valid from	Estimate
1	As a new student, I would like to find points of interest on and around campus	5 Jul 2016	5
2	As an international/new student I want to be able to explore the local stuff	5 Jul 2016	5
3	As a tester I want documentation so that I can fix potential errors	5 Jul 2016	3
4	As a student I want my voice heard / want others to discover the places I like / I would like to share my stories	5 Jul 2016	21
5	As a student I want an actual description of the place that i might visit and I want other peoples opinions	5 Jul 2016	5
6	As a student I want relevant content, as to not waste time on digging through "spam"	5 Jul 2016	21

Sprint 1 Plan
 UCSC Interactive Map
 A Team
 End July 11

7	As a regular chiller, I want to know all the good "chill spots" (category pins!)	5 Jul 2016	3
8	As a current student, I want to not have to give people directions to new places	5 Jul 2016	5
9	As an instructor, I want my students to be on time to lectures so that my class will run smoothly	5 Jul 2016	3
10	As a potential user, I want to be able to find the app so that I may use it.	5 Jul 2016	8
11	As a moderator I want tools to be able to easily delete offensive material	5 Jul 2016	13
12	As a developer I want to put something cool on the market	5 Jul 2016	7
13	As a potential user, I want an app that is continuously useful so that I will retain it on my phone	5 Jul 2016	21
